Overview

Over the last decade, “nuclear verdicts” – jury awards surpassing \$10 million – have steadily been increasing. Orrick trial partners **Bill Oxley** and **Meghan Kelly** will discuss why this is happening and will provide a roadmap to avoid a nuclear verdict.

In this course, Bill and Meghan will discuss research undertaken by TrialPartners Inc. detailing the recent shift in jury attitudes resulting from current events such as the COVID-19 pandemic, political polarization, and the changing demographics of jury pools, among other factors, and will offer strategies to overcome increasingly anti-corporate juries.
